We understand that queueing at clinics may not be the most convenient in your time crunch routine.

Sometimes, the elderly may not be able to make their way to the clinic due to poor health or mobility inconvenience. Busy caregivers tending to young kids at home may also find it difficult to accompany their seniors to the clinic.

This is why at Bethesda Medical, we provide mobile health screening service for you at the comfort and privacy of your own home.

Book your appointment with our mobile health screening team by emailing mobilescreening@bethesda.com.sg.
